

Public Science Day

Long Beach, California - United States

In the Pyramid's Pointe Conference Center at Cal State Long Beach - USA

Free to the
Public!

In pursuit
of truth in
Science!

Saturday, June 26, 2010 from 9 am - 6 pm

PART OF THE 17TH ANNUAL NATURAL PHILOSOPHY ALLIANCE CONFERENCE JUNE 23 - 26, 2010 @ CAL STATE LONG BEACH

LIVE LECTURES & EXPERIMENTS SHOWING:

including **Einstein's Theory of Relativity: WRONG**
The Bernoulli Effect: WRONG

And more...

The Rodin Coil with Marko Rodin
Bernoulli Effect Debunked - Enter Radial Momentum
Dangerous High-Speed Magnetic Levitation Maglev
Sarg Effect Gravitational Anomaly
Helical Structure Models with Don Briddell
Unipolar Induction: An Experimental Disproof of Special Relativity
Toroid Quantum Model & Spinning Ring Atomic Models
Microwave Ball Lightning
Hands-On Brown's Gas
Quantum Step Resistance
& more...

Part of the 17th NPA Conference

The Natural Philosophy Alliance comprises scientists from around the world who challenge conventional theories in cosmology and physics. Their scientific work includes questioning and creating alternatives to Einstein's relativity, the Big Bang, the standard model, quantum structure, and the philosophy of science. See: www.worldnpa.org

SPECIAL GUEST SPEAKERS

10 am
Ron Hatch

GPS expert and holder of twelve GPS patents, Ron Hatch will talk on the possible realities behind the theory of what is really happening with global positioning engineering. And the answer is not Einstein's relativity.

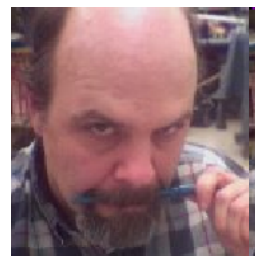

2:30 pm
Dr. Frank Gordon

After a 39-year career in federal government and civilian work heading up large projects, Dr. Frank Gordon retired in 2009 to work on cold fusion full time. He will speak on how cold fusion is hot again coining the title from the 60 minutes piece by friend Dr Michael McCubre.

1 pm
Neal Adams

On the forefront of bringing the theory of the growing earth & universe to the public, Neal Adams's videos have been seen on Youtube by millions. Hear him talk on the evidence for the growing earth and other celestial bodies.

4 pm
Bill Beaty

Entertaining and always dangerous, this mad scientist will show you he is mad for the incredible ideas and experiments that make people think. His YouTube videos have been seen over a million times

public.worldsci.org

Sponsored by the Natural Philosophy Alliance (www.worldnpa.org) in conjunction with the World Science Database (www.worldsci.org) representing over 1700 scientists world-wide
